IMPORTANT REMINDERS ABOUT OUR PROGRAM

Confidentiality. No one but the supervisor and the person to be tested needs to know about the test and it is recommended that the notification be done in private. Our program ensures complete confidentiality by providing the selected employee’s name solely to the municipality’s designated employer representative contact person.

Documentation. With the risk of penalties for non-compliance and other personnel litigation that could arise, documentation of all action is crucial. Our program confidentially tracks, records, and maintains all necessary records of selection, testing, and follow-up, and provides semi-annual and annual reports for your protection.

Convenience. Our program offers testing sites throughout PA, including some areas with 24 hour availability.
